## TEXAS DOCTOR BEATEN AND SHOT

Taken Out Under Cover of Darkness and  
Fearfully Wounded

Special to the Eagle.

Alvord, Texas, June 22.—Dr. L. H. Evans, a prominent physician of this city, was terribly beaten and shot early yesterday morning near Sunset, where he had gone to visit Miss Ida Hasty. He was returning about midnight when two men leaped upon him from a dark roadside.

He was dragged into a deep woods, laid across a log and beaten and choked

until he was unconscious. Evans recovered to find his assailants still holding him. He then tried to escape and was shot twice. The men then fled, dropping a knife and a hat which may lead to arrest. Evans when accosted believed the men were robbers and offered his money and watch, which they angrily refused. He does not know their motive. The physician is now at the Sunset hotel, where his condition is critical.

### DENTON MAN GETS THE JOB

### WEATHER.

New Orleans, La., June 22.—To night and Wednesday partly cloudy weather for Bryan and vicinity.

George Edge, a merchant of Harris School House was in the city today looking after business matters.

### FASTEST SEA RECORD EVER MADE

The Mauretania Clips off Another Fifty Minutes.

Queenstown, June 22.—The Cunard line steamer Mauretania has clipped another fifty minutes off the best previous eastward record, which is also her own. She accomplished the journey from New York in four days 17 hours and 21 minutes, the best previous time being four days 18 hours and 11 minutes.

### ICE! ICE! ICE!!!

Help Bryan Grow by Patronizing Home Industry.

I am now operating my ice factory and fan system jointly and am prepared to supply Bryan and all the surrounding country with ice. I cannot dispose of it however and am compelled to close down at night. There is no necessity for shipping ice into Bryan from Houston or other outside points when we have a factory here for its manufacture that can supply every demand, that gives employment to labor, that helps the business of the city with its payrolls and pays its taxes to help support the city and county governments. I want the people of Bryan to know they get their money's worth when they buy ice from the Bryan Ice Company. My ice weighs 310 pounds to the block, yet I am selling it at the rate of 240 pounds to the block. Do you not think this liberal treatment when 70 pounds out of every block is absolutely given away. You will not find another ice plant that will do this, therefore when you can get this liberal treatment and cheap prices why help to ship ice into Bryan and thereby tear down a home enterprise. I have sold to other ice dealers in Bryan but seven blocks of ice in seven months, notwithstanding the fact they can buy it from me at their own figures. This forces me to close down at night when the fan circuit is off, which throws several men out of employment, and also forces me to additional expense of starting up the machinery the next morning. If the people of Bryan will by their patronage, keep the plant busy manufacturing ice during the summer months, I will place fans in every residence where desired at one half price.

L. STEPHAN,

Manager Bryan Ice Company.

### RAINS FALL FROM -AMARILLO TO EL PASO

Special to the Eagle.

El Paso, Texas, June 22.—Scattered rain fell Sunday night from Amarillo to El Paso. Texas and Pacific official reports a cloudburst at San Martine, near Toyah, washing out a stretch of track which is now being repaired.

### YEARNED TO SEE THE ALAMO.

Andrew Jackson, Ninety-Two-Year-Old Man, From Virginia.

Special to the Eagle.

San Antonio, Texas, June 22.—Having come all the way from Richmond, Va., Andrew Jackson, 92 years of age, has arrived here for the purpose of seeing the Alamo. He has newspaper clippings showing the various cities through which he passed on the way to San Antonio. He has been on the road three months and says that he feels very good after his long trip.

Jackson fought at the battle of the Alamo 65 years ago. He also fought in the Mexican and civil wars. He is on his way to Mexico to visit the old battlefields there.

### THE NEWS BRIEFED.

The price of radium, established by the British scientists, is \$8,000,000 per pound of twelve ounces, as 7½ grains have been contracted for for \$150,000.

H. E. Huntington, president of the Los Angeles Pacific Railway Company, was slightly injured in an automobile accident near San Bernardino Sunday.

Measles has broken out in the Harvard camp, and Hooper, who has been rowing No. 2 in the 'varsity' four, will lose his seat on account of an attack of the disease.

Mrs. Bellamy Storer has established a new society the aim of which is to obtain from steamship and railway officials permission for pet dogs to travel with their mistresses.

The American Board of Commissioners of Foreign Missions will start in July to raise a fund of \$2,000,000 for the enlargement of all the educational institutions under its supervision.

Rev. J. W. McCann, pastor of St. Mary's Roman Catholic Church, and Rev. W. I. Beal of the Episcopal Church, Elgin, Ill., have expressed themselves as not being opposed to Sunday baseball.

Nikolas Kaumanns, German Imperial commissioner at Washington, is in East St. Louis watching the investigation of the parking house inspection which is being conducted by the government.

Dr. J. Goldberger of the Philadelphia Marine Hospital Service has gone to Washington with his arm a mass of blisters from being inoculated with the newly discovered "straw disease" which arises from sleeping on straw mattresses.

To prevent the wholesale smuggling that has been common at New York port special watchmen will be employed to see that no trunks or parcels are lowered over the sides of vessels into waiting boats.

There is a strong probability that President Woodrow Wilson of Princeton University will be the next Democratic nominee for governor of New Jersey, though he is not personally engaged in the campaign.

### SCHOOL BOARD MEETING.

The city school board met yesterday at 4 o'clock p. m.

An additional high school teacher was needed on account of the extension of the course. A teacher who had taken a full university course in mathematics and had specialized on that department was decided upon. Miss Johnnie Wilson of Taylor, Tex., being such a teacher, was elected to the new position.

Miss Wilson has specialized on mathematics many years and is recommended by that department of the University of Texas as well prepared for such work.

She also brings a good record from the University of Chicago, where she has taken summer courses in addition to the regular university courses in this State. Besides being an experienced teacher and mathematical specialist Miss Wilson is a refined and cultured young lady, an earnest member of the Baptist Church and will be quite an addition to the social and literary circles in our city.

## TAPPED FARMER'S TRUNK FOR \$3,000

Kept Money in Trunk and Clever Thief  
Evidently Knew About It.

Special to the Eagle.

San Marcos, Tex., June 22.—The home of P. L. Loman, a prosperous and wealthy farmer living near Staples, in Guadalupe County, was entered last night at a late hour, and a trunk containing approximately \$3,000 was taken from the house. The trail of the robbers was followed today and the trunk and contents found in a chapparal thicket a short distance from the house. It is believed the thieves

planned to leave it there and return later and complete the robbery. There is no clew whatever to the thieves. Mr. Loman is one of the wealthiest farmers in that section and has a way of doing his banking business, this fact being known generally in the neighborhood. The money was kept locked in a trunk and in a clothes closet. Whoever the thieves were, they no doubt understood fully the habits and customs of their victim.
